Second Career Planning

"In a time of uncertainty, as in this present covid19 environment, your primary career may not be secured or sufficient, given the changes & transitions of your present life trajectory.

You can secure your future by planning a second or secondary career. This can be designed in a creative & innovative manner with specifications & measurements of your own choosing.

You can test your secondary career plan through a risk-free & relatively cost-free process whilst at the same time fulfilling whatever dream job that you may have from deep within your heart. At the least, you can shape the story of your life in the direction of utilizing your strengths & overcoming your weaknesses in the work you feel called to do to make a difference to the world."- *President Adrian Teo*

Date: **Every Wednesday starting 4 Nov over 4 sessions**
 Time: **9.30 am to 1pm**
